Computing & Networking

- **Computing Hardware powered by** Compulab

Fitlet2 PC – Fanless Computer for Compact & Industrial Applications

fitlet2 is based on quad-core Apollo-Lake Atom with up to 16 GB RAM.

It provides performance that not long ago required a Core CPU that could not be fitted in such a small passively-cooled footprint due to higher power consumption.

Building/Facility Control

- **Access Control Solutions powered by** BOSCH Invented for life

- Investing in the right technology is central to the protection of your employees, site visitors and ultimately the success of your company. While you naturally want your business premises to be as open and welcoming as possible – as well as making it easy for staff and visitors to move around the building – you need to ensure maximum protection against unauthorized intruders.

Comprehensive access control offer   **Flexible solutions for any project**

Building/Facility Control

- **PAGA (Public Address & General Alarm) Systems by** BOSCH
Invented for life

High-quality public address and voice evacuation systems are essential for dealing with security and safety challenges.

To be truly effective, a public address and emergency sound system must deliver exceptional performance and reliability. Roncho Energy provides PAGA solutions for major transportation terminals, houses of worship, public buildings, office buildings, schools and shopping malls in Nigeria.
